SAKSHAM BANSAL

+91 9354632052 Delhi, India saksham.bansal0807@gmail.com LinkedIn GitHub

SUMMARY

Software Engineer (B.Tech, Computer Science & Applied Mathematics) with research and open-source experience and **10+ shipped projects** in Python, C++, Java, and TypeScript. Secured **3rd Place Nationwide at Adobe India Hackathon 2026** among **83,000+ teams** and **300,000+ participants**, receiving a **Special Mention from Adobe's Senior Director of Engineering**. Ranked **1st at Goldman Sachs India Hackathon** among **5,000+ participants** and achieved **AIR 5 at IMC Prosperity 4** among **22,000+ teams**. Strong in **backend systems, REST APIs, and machine learning**.

EDUCATION

Indraprastha Institute of Information Technology Delhi (IIITD) Delhi, India
B.Tech in Computer Science and Applied Mathematics Aug 2023 – May 2027
Coursework: Data Structures & Algorithms, Operating Systems, DBMS, OOP, Probability & Statistics, Machine Learning, Reinforcement Learning

SKILLS

Languages: C, C++, Python, Java, JavaScript, TypeScript, SQL (PostgreSQL, MySQL), Bash, HTML, CSS
Frameworks & Tools:API's, Fastify, Streamlit, Pandas, NumPy, Docker, AWS (EC2), Kafka, Redis, WebSockets, Git, Linux, pytest, JUnit, LibGDX, NoSQL, Docker, React
Core Competencies: REST APIs, System Design, Algorithms, Data Structures, Unit Testing, Machine Learning, Reinforcement Learning, RAG, Generative AI, LLMs

WORK EXPERIENCE

Sengupta Lab, IIIT Delhi – *Software/AI Developer* May 2025 – Aug 2025
- Owned end-to-end delivery of an agentic NL2SQL framework enabling natural-language queries over **1M+ biomedical records**.
- Accelerated retrieval with parallel multi-database pipelines, achieving **3x faster execution** across **10K+ queries**.
- Automated preprocessing across **6 data sources** with a cross-functional team, cutting manual effort by **70%**.

CHAOSS Augur (Linux Foundation) – *Open Source Contributor, Python, GitHub API* Jun 2025 – Jul 2025
- Implemented **HTTP 404 handling** and **repository-move detection** across GitHub data collectors in a production analytics platform.
- Hardened collectors against **2 production failure scenarios** using exception handling, structured logging, and repository-state validation.

PROJECTS

AIRA – Brand AI-Readiness Audit – *Python, OpenAI API, AWS Lightsail, Agent Skills* Aug 2026 – Present
- Built a 6-skill audit agent that scores how well a website can be crawled and cited by AI answer engines (**0–100 score**), with severity-ranked fixes.
- Designed an adaptive sitemap sampler (**30–75 pages**) and probed sites as **8 AI crawlers** to find robots.txt blocks, noindex, JS-only content and missing schema.
- Deployed a live dashboard on AWS; placed **3rd at the Adobe Hackathon 2026 Grand Finale**.

ElevateBox Voice – Outbound AI Sales Caller – *TypeScript, Fastify, OmniDimension* Jul 2026 – Aug 2026
- Built an India PSTN voice agent that qualifies leads live and sends a mid-call WhatsApp packet with a vCard and architecture overview.
- Designed an English-first multilingual flow (Hindi, Telugu) with callback booking, remote hangup, and a live call dashboard.

DocBot – AI Documentation Chatbot – *Python, Streamlit, Gemini API, LanceDB* May 2025 – Jun 2025
- Designed a semantic-search chatbot achieving **sub-1s latency** and **95% retrieval accuracy**.
- Deployed on Streamlit Cloud with real-time indexing and a responsive interface.

QuantFund Research Terminal – *Python, FastAPI, Next.js, TypeScript, SQLAlchemy, Docker* Jun 2026 – Present
- Built an institutional research platform for Indian markets with certification-gated datasets, reproducibility proofs, and a fail-closed safety posture.
- Shipped backtesting, factor research, portfolio risk, and a deterministic AI research copilot behind a FastAPI + Next.js terminal UI.
- Added multi-tenant RBAC, NSE instrument master integration, and containerized AWS EC2 deployment.

ACHIEVEMENTS

- **Adobe India Hackathon 2026:** Secured **3rd Place Nationwide (2nd Runner-Up)**, finishing among the **top 3 teams out of 83,000+ teams** and standing out among **300,000+ participants** nationwide.
- **IMC Prosperity 4 (2026):** AIR 5 and Global Rank 65 among **22,000+ teams** building algorithmic trading strategies.
- **Amazon ML Challenge 2026:** Top 100 teams nationwide from **90,000 participants** (top 0.1%).
- **Goldman Sachs India Hackathon 2025:** Ranked 1st of **5,000+ participants**; advanced to national Semi-Finale.
- **Y Combinator Startup School India 2026:** Selected from **25,000+ applicants** for the Bangalore cohort.
- **Codeforces Expert:** Max rating **1704**; solved **500+ problems** across Codeforces, LeetCode, and CodeChef.
